

AVAILABLE NOV. 1, 2021!: Pricing Set on Use of FCC's Cool New Reassigned Number Database

Article By:

Eric J. Troutman

As we've been socializing for a few months now, the [FCC's beta test for its reassigned number database is a *must enroll*](#).

Well Friday the Commission just announced initial pricing for the use of the fully-operational database when it becomes available November 1. Here's the rate structure:

Tiers	1-Month Subscription Queries	1-Month Subscription Usage Charge	3-Month Subscription Queries	3-Month Subscription Usage Charge	6-Month Subscription Queries	6-Month Subscription Usage Charge
Tier 1: Extra Small	1,000	\$ 10	3,000	\$ 30	6,000	\$ 60
Tier 2: Small	10,000	\$ 75	30,000	\$ 225	60,000	\$ 450
Tier 3: Medium	500,000	\$ 2,500	1,500,000	\$ 7,500	3,000,000	\$ 15,000
Tier 4: Large	2,000,000	\$ 5,000	6,000,000	\$ 15,000	12,000,000	\$ 30,000
Tier 5: Extra Large	10,000,000	\$ 20,000	30,000,000	\$ 60,000	60,000,000	\$ 120,000
Tier 6: Jumbo	30,000,000	\$ 35,100	90,000,000	\$ 105,300	180,000,000	\$ 210,600

As you can tell there are some discounts here for volume and subscription length.

As a reminder, here is how the database works:

1. Callers will need to know "last good" dates for all numbers they wish to call—this the the date that the caller last reached the consumer on the number;
2. Callers send the number and the last good date to the Administrator;
3. The Administrator sends back a "Yes" or "No" indicator—yes meaning the number *has been* permanently deactivated since the last good date and no meaning it has not been.
4. Callers must avoid calling "Yes" numbers and, if they do, they receive a safeharbor protecting them from wrong number calls to numbers that were marked "no."

Always happy to chat this stuff through.
