## **Food & Chemicals Unpacked Podcast Ep. 1: PFAS and Furious [PODCAST]**

Article By:

Mark Thompson

Kathryn C. Skaggs

---

Welcome to the first episode of Food & Chemicals Unpacked! Today's episode focuses on the regulation of PFAS in food packaging applications. This incredibly important issue affects a huge number of products in various markets. We provide an overview of these chemistries and summarize developments in the United States at both the Federal and State level on PFAS regulation. Additionally, our team discusses some of the recent trade press that impacts food, e-cigarettes and the chemical industry.
