EU NSC Conducting Survey on Implementation of Nanosafety in Workplaces

Article By:

Lynn L. Bergeson

Carla N. Hutton

The European Union (EU) NanoSafety Cluster (NSC) **announced** on October 24, 2023, that it is conducting a survey on the implementation of nanosafety in workplaces. NSC states that the survey aims to gather insights on the current practices and challenges of implementing nanosafety in workplaces. According to NSC, responses will help shape recommendations for future safety guidelines and protocols. NSC notes that participation will take approximately 15-20 minutes.
