

USCIS Will Launch Organizational Accounts in February 2024

Article By:

Corona C. Wang

U.S. Citizenship and Immigration Services (USCIS) recently announced plans to introduce organizational accounts for H-1B fiscal year (FY) 2025 cap filings, H-1B non-cap filings, and associated premium processing requests on Form I-907. The launch of organizational accounts appears to be part of an ongoing initiative to increase efficiencies, improve customer experience, and facilitate collaboration between organizations and their legal representatives.

Quick Hits

- Organizational accounts will allow companies and their legal representatives to opt for the electronic filing of Form I-129 for H-1B petitions, in lieu of paper submissions.
- The organizational accounts will allow multiple individuals within a company and their legal representatives to access and collaborate on H-1B registrations, H-1B petitions using Form I-129, and premium processing requests.
- As part of this initiative, USCIS will also update paper-filing locations for Forms I-129 and I-907 to the USCIS lockbox.

USCIS stated in its [announcement](#), issued on January 12, 2024, that it expects the initial rollout of organizational accounts to occur in February 2024. The expansion of the program to online filings of Form I-129, Petition for a Nonimmigrant Worker, and Form I-907, Request for Premium Processing Service, is expected shortly afterward.

USCIS is hosting a webinar on this new program for [companies](#) on January 23, 2024, and a webinar for [legal representatives](#) on January 24, 2024.
