The AI Workplace: A Guide on AI Policy Essentials [Podcast]

Article By:

Sam Sedaei

Hera S. Arsen

In this episode of our new podcast series, *The AI Workplace*, where we explore the latest advancements in integrating artificial intelligence (AI) into the workplace, Sam Sedaei (associate, Chicago) shares his insights on crafting and implementing effective AI policies. Sam, who is a member of the firm's Cybersecurity and Privacy and Technology practice groups, discusses the rapid rise of generative AI tools and highlights their potential to boost productivity, spark innovation, and deliver valuable insights. He also addresses the critical risks associated with AI, such as inaccuracies, bias, privacy concerns, and intellectual property issues, while emphasizing the importance of legal and regulatory guidance to ensure the responsible and effective use of AI in various workplace functions. Join us for a compelling discussion on navigating the AI-driven future of work.
