Harnessing AI in Litigation: Techniques, Opportunities, and Risks [Video, Podcast]

Article By:

Christopher M. Farella

Alkida Kacani

What if the key to navigating your most complex legal challenges lies in the capabilities of artificial intelligence (AI)?

Join Epstein Becker Green attorneys Alkida Kacani and Christopher Farella as they sit down with Jonathan Murphy, Senior Manager of Forensics at BDO, to examine how AI is revolutionizing the practice of law.

Discover how advanced technologies are refining e-discovery, optimizing predictive analytics, and transforming document review processes. The discussion also takes a deep look into the ethical considerations of integrating AI into legal work, from safeguarding sensitive information to maintaining professional standards in a highly dynamic field.
