---

On October 9th, **Assemblymen Jerry Green, John Burzichelli and Troy Singleton introduced legislation** (A-3815, not yet available for review) to **extend the Permit Extension Act for two more years** (until December 31, 2016). The current Permit Extension Act (PEA) expires on December 31st of this year. Whether or not this further extension is approved depends on the number of projects and jobs negatively affected.
