USCIS EB-5 Visa Processing Times Increase

Article By:

Dillon R. Colucci

USCIS updated its processing times for the Immigrant Investor Program Office on Feb. 11, 2015. Unfortunately, the news is not welcome. Processing times ticked up slightly to 14 months for I-526 Petitions, 11.4 months for I-829 Petitions and 11.1 months for I-924 Applications. The I-924 Application processing time has risen a full seven months from a low of four months in June 2014. However, I-526 Petition processing time has held relatively steady in the past six months, only oscillating from a low of 13.3 months in July 2014 to a high of 14.7 months in October 2014. The processing times can be accessed by anyone here.
