OSHA Stresses Fireworks Safety

Article By:

Jordan Helvie

We can all agree, the fireworks around the *July 4th* holiday are great. But, did you ever stop and think about the dangers employees of the **pyrotechnics industry** face in manufacturing, storing and selling these products? OSHA has a web page dedicated to discussing hazards associated with retail sales of fireworks and fireworks displays. For more information on this topic, see OSHA's recent [news release](#).

Have a safe and happy holiday weekend.
