

## In the Cross-Hairs: Healthcare Officers, Directors, and GCs

Article By:

David J. Edquist

---

As health law changes, so do your responsibilities. This webinar originally recorded June 23, 2011, outlines some of these changes. Be it through recent healthcare reform or other fraud and abuse developments, healthcare officers, directors and general counsel are assuming more and more professional risks, including the risk of criminal indictments. Not only are these individuals responsible for the oversight of their healthcare organizations, but they now must understand the changing healthcare landscape and be prepared to respond to new challenges in accordance with swift, aggressive timeframes. Through this presentation, David and Michelle will help you come up with a game plan to keep your healthcare officers, directors and general counsels out of the cross-hairs.
