DOE Announces Release Of Peer Review Report

Article By:

B&C® Biobased and Sustainable Chemicals Practice Group Bergeson & Campbell, P.C.

On February 6, 2018, the [U.S. Department of Energy's \(DOE\) Bioenergy Technologies Office \(BETO\) announced the release of its 2017 Project Peer Review Report](#). The report contains recommendations provided during the March 2017 Project Peer Review. The biennial Peer Review process aims to gather feedback and recommendations from stakeholders on BETO's research and development portfolio to help BETO identify the most efficient and effective ways to accelerate the development of an advanced bioenergy industry. BETO will use the results of the 2017 Peer Review to inform programmatic decision making, modify or discontinue existing projects, guide future funding opportunities, and support other budget and strategic planning objectives. As reported in the BRAG blog post [BETO Announces Availability Of Project Peer Review 2017 Presentations](#), the 2017 Project Peer Review presentations are available on the BETO website.
